Summary

Motivated Computer Science and Engineering student pursuing a B.E. in CSE alongside a B.S. in Data Science and Applications. Proficient in Python, C++, SQL, Data Structures & Algorithms, and Data Analysis, with hands-on experience through academic and personal projects. Passionate about software development, machine learning, and problem-solving, and currently seeking internship opportunities to apply technical skills, gain industry experience, and contribute to innovative technology solutions.

Education

BE CSE , Aug 2024 — Aug 2028

SATHYABAMA INSTITUTE OF SCIENCE AND TECHNOLOGY

Pursuing a comprehensive curriculum in computer science, encompassing software development, data structures, algorithms, database management systems, operating systems, computer networks, and emerging technologies. Developing strong analytical, problem-solving, and programming skills through academic projects and practical applications.

BS IN DATA SCIENCE AND APPLICATION , May 2024 — May 2028

IIT MADRAS

Simultaneously pursuing dual undergraduate programs in Computer Science & Engineering and Data Science & Applications, developing complementary expertise in software engineering, data analytics, and machine learning.

Skills

- **Programming:** Python, C, C++, Java, SQL
- **Core CS:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks
- **Data Science:** Pandas, NumPy, Statistics, Data Analysis, Machine Learning Fundamentals
- **Tools:** Git, GitHub, VS Code, Linux
- **Soft Skills:** Problem Solving, Teamwork, Communication, Time Management

Certifications and Licenses

- Cisco Certified Network Associate (CCNA) – Introduction to Networks
- IBM Data Science Professional Certificate
- Microsoft Azure AI Fundamentals (AI-900)

Projects

Student Management System | Python, MySQL

- Developed a database-driven application to manage student records, attendance, and academic information.
- Implemented CRUD operations and improved data organization and retrieval efficiency.

Personal Portfolio Website | HTML, CSS, JavaScript

- Designed and developed a responsive personal portfolio website to showcase skills, projects, and achievements.
- Applied modern web design principles and user-friendly navigation.
